

Abrahamsberg 2020-12-01

### **To all parents and guardians of children at Abrahamsbergsskolan**

Below is important information for you as a parent with children at Abrahamsbergsskolan in connection with new directives from the Swedish Public Health Agency.

#### **Symptom-free children should stay at home if someone in the family has covid-19**

Primary school pupils living with someone who has covid-19 should stay at home. The Public Health Agency is now changing the recommendations so that staff in schools and preschools can focus on their pedagogical work.

<https://www.folkhalsomyndigheten.se/nyheter-och-press/nyhetsarkiv/2020/december/symtomfria-barn-bor-stanna-hemma-om-nagon-i-familjen-har-covid-19/>

Keep in mind that it's important at this time to notify your child's mentor if you or your child have Covid-19.

If your child is at home but is not sick, you as a guardian need to contact a teacher so that the school can make an assessment whether the child is up to distance learning and how to send material home so that the student can follow the instructions.

We would like to appeal once again to those of you who can have the opportunity to keep your children home during the Christmas holidays. If your situation changes during the Christmas holidays, please notify the respective department.

This is a difficult situation, close to the Christmas holidays, and we want to try to make an effort to do the best in the best interests of your children and our employees.

Right now, the school, just like the rest of society, is under a lot of strain. We hope that you as a guardian have an understanding of the current situation of school and recreation centers.

**Sincerely**

Ulf Berg  
Principal
